

Kartikey Upadhyay

(Software Development Engineer 2+ year of Experience)

(+91) 8179576037 | upadhyay778@gmail.com

Experienced Software Developer with a demonstrated history of working in the computer software industry. Skilled in Machine Learning/Neural Networks, Tensorflow/Pytorch/Keras, Embedded Systems, C++/C. Strong engineering professional with a Bachelor's Degree from NIT Allahabad.

TECHNICAL PROFILE

Programming Languages/Skills	C/C++, Python, Data Structures and Algorithms
Machine Learning Frameworks	Tensorflow, Pytorch, Keras
Tools	Source Insight, Araxis Merge, Jupyter, Visual Studio, QXDM(Qualcomm Proprietary), Perforce.

EXPERIENCE

KOFAX, Hyderabad – Software Engineer

October 2018 – Present

- Working as a Machine Learning software engineer in Mobile products team.
- Working as a Machine Learning POC to distinguish between blur images and sharp images using CNNs.
 - ML Frameworks : Tensorflow/Keras
 - Programming Language : Python
 - Writing code from scratch and end to end for the following:
 - Dataset generation: Working on custom image dataset and converting them to TF records for feature engineering and then passing it into model to train it.
 - Model Training: Training the model using CNNs using optimizers, regularization, pooling and convolution and testing the accuracy on test data.
 - TFLite Conversion : Converting the trained model into TFLite Model, official solution for running machine learning models on mobile and embedded devices.
 - Testing accuracy in mobile phones of the TFLite model

QUALCOMM , Hyderabad

- Worked as a software Developer in Drivers Area of User Identity Module-A software module used for interaction between SIM and UI or ME.
- Worked on various issues reported by respective teams of Organization and couple of Customer issues.
- Worked on multiple change requests.
- Strong Debugging skills on VIRTUIM (An off-target environment which acts as a virtual SIM card)

- Good understanding of ETSI specs and ISO specs.

July 2016 – October 2017 - Associate Engineer

- Worked on multiple feature requests Development some of which are listed below:
 - New Log packets for APDU: Created new log packet for APDU- Communication unit by which UIM modules interact with the card.
 - Common Path for Local and Remote UICC cards: Worked on creating a common path for local and remote card in which the advantages of local card path were carried forward to remote card.
 - GET EID for M2M eUICC cards where LPA is not supported
- Worked as a Bring up POC from UIM Drivers for SDM630 and SDM670.
- Programming Language : C/C++

November 2017 - October 2018 - Engineer

- Worked on multiple feature requests Development some of which are listed below:
 - Make the Open market device from Dual SIM to Single SIM via RSU BLOB : To disable the slot returned by RSU blob
 - Reducing RCinit timeline: Worked on UIM drivers changes to reduce the EFS read/write time during the RCINIT initialization.
 - DSSA using subscription Manager
- Worked as a Bring up POC from UIM Drivers for SDM 439 and SDM632

ACADEMIC PROJECTS:

Foundation of Artificial Intelligence and Machine Learning – IIIT Hyderabad (Jan'18 – May'18)

- Learned fundamentals of Machine Learning and Artificial Intelligence
 - Supervised Learning and Unsupervised Learning
 - Gradient Descent, Backpropagation, Neural Networks and Multilayer Layer Perceptron
 - Deep Learning including RNNs and CNNs(Framework: Tensorflow/Pytorch)
 - Decision Tree, Random Forest and other ensemble methods
- Good knowledge of Sci-kit Learn, Tensorflow and Pytorch.
- Efficient in data analysis.
- Worked on GPU as well as Google-collab.
- Worked on sentiment analysis from different tweets and on different amazon case study.
- Worked on 3 different Kaggle case studies and on different datasets. Stood in 2nd position for one of the case study.
- Developed a single rule based chatbot for restaurants and mobile phones which help in dynamic switching between both.
- Developed a bot to take respective turn using the directions (i.e. left, right, etc.) and avoiding obstacles in the path.

EDUCATION

Board	Institute	%/CGPA
NIT Allahabad	Motilal Nehru National Institutes of Technology (NIT) Allahabad	8.17
12th CBSE	Cynthia School, Haldwani	89
10th CBSE	Cynthia School, Haldwani	9.4

AWARDS

- Awarded 5 Qualstars
- Awarded certificate of Merit for being in Top 20 in retail case study held in Kaggle Platform

PERSONAL INFORMATION

Date Of Birth 10 December 1995

Gender Male

Father's Name Deep Chandra Upadhyay

Languages English and Hindi.

Email upadhyay778@gmail.com

Permanent Address Sarvodaya Vihar, Bari Mukhani, Haldwani, Nainital
